

FSG Recently Published Five Case Studies of Leading Blended Learning Providers, with Support from the Michael & Susan Dell Foundation

FEATURING:

- Each of the five case studies provides an in-depth look at the **instructional, operational, and financial** model of a leading blended learning operator
- An accompanying introduction features **lessons learned, common challenges, and key needs** for the field
- Our intent in publishing these case studies was to bring a **practice-based perspective** to the national debate on the role of technology in education
- The case studies were released in September 2012, and along with further blogs and videos on blended learning can be found at www.msdf.org/blendedlearning
